Profile

Senior **PRO & Compliance Specialist** with extensive hands-on experience managing **UAE government relations, corporate structuring, licensing, visas, taxation, VAT, and regulatory compliance** across mainland and free-zone entities. Proven expertise in handling **end-to-end PRO operations**, ensuring businesses remain fully compliant while scaling efficiently.
Highly experienced in working with **MOHRE, GDRFA, ICP, Tasheel, Tawjeeh, Amer**, and other official government portals, successfully processing **employment visas, family visas, investor visas, change status, cancellations, renewals, and labour transactions** with accuracy and speed.
Strong background in **corporate tax registration & calculations, VAT compliance, accounting coordination, audits, and regulatory reporting**, with exposure to complex regulatory environments including **DIFC, ADGM, VARA, DLD, and international compliance frameworks**.

Professional Experience

Senior Compliance Officer & PRO, *Mobius Network Artificial Intelligence* 02/2025 – Present
Dubai, UAE

At Mobius, I manage **all legal, regulatory, and government-related operations**, acting as the primary **PRO and compliance lead**, ensuring the company operates lawfully across UAE and international jurisdictions.

Key Responsibilities & Achievements

- Led **company licensing and regulatory setup** across **DIFC, ADGM, VARA**, including initial approvals, renewals, amendments, and ongoing compliance.
- Managed end-to-end visa operations:
- Employment visas (new, renewal, cancellation)
- Family visas
- Investor visas
- Change status & in-country processing
- Executed transactions across **MOHRE, GDRFA, ICP, Tasheel, Tawjeeh, and Amer**, ensuring zero delays or penalties.
- Handled **corporate tax registration, calculations, filings, and compliance**, coordinating with auditors and accountants to maintain accurate financial records.
- Oversaw **VAT registration, filing, reconciliation, and reporting**, ensuring compliance with UAE Federal Tax Authority regulations.
- Maintained **company accounting coordination**, expense tracking, audits, and statutory documentation.
- Secured **VARA approvals** and supported regulatory engagement for crypto, blockchain, and digital asset-related activities.
- Acted as the **single point of contact with government authorities**, free zones, legal advisors, banks, and auditors.
- Managed **shareholder documentation, board resolutions, power of attorney, and legal filings**.
- Supported executive leadership with **compliance strategy, regulatory risk mitigation, and operational governance**.

- Played a key role in **company operations management**, ensuring legal readiness for partnerships, investors, and expansion.
- Represented the company at **Token2049 Singapore (Origins Hackathon)**, coordinating regulatory and operational positioning with global stakeholders.

Full Stack Blockchain Developer, *Emirates National Schools* 02/2023 – Present
Abu Dhabi, United Arab Emirates

- Led the development of a blockchain-based educational platform in React.js and TypeScript, prioritizing enhanced administration access control for secure student data.
- Implemented smart contracts for a dynamic CMS with PHP and MySQL, ensuring responsiveness and flexibility while tracking and enhancing students' learning experiences on the blockchain.
- Integrated online payment gateways into a blockchain-powered fee management system, automating processes and optimizing revenue while ensuring transparency.
- Innovated admissions process automation with smart contracts, resulting in a 30% efficiency boost, reduced workload, and heightened transparency for student admissions on the blockchain.
- Engineered a decentralized intranet portal for six departments, using Docker and Kubernetes, improving collaboration and ensuring data integrity on the blockchain.
- Developed a high-performance notification panel with Etisalat and Duo SMS systems, exploring blockchain-based notifications for secure communication in the educational ecosystem.
- Spearheaded the creation of a secure platform for issuing graduation certificates as NFTs on the Polygon blockchain, ensuring auditing, safety, and transparency in certificate issuance.

Blockchain Developer, *Kryptohive* 08/2022 – 10/2023
Islamabad, Pakistan

- Led the development of the Pontem Wallet using React.js, that has attracted over 1 million active users, making it one of the most popular wallets on Aptos.
- Wrote and audited smart contracts for the Pontem Network's Swap in Move programming language. Reducing transaction fees by 10%.
- Improved the user experience of the Pontem Wallet UI and website, resulting in a more engaging user experience and increased community engagement.
- Launched Airdrops and distributed PONT resulting in 200,000 active users of Pontem Network.
- Developed a cross-chain bridge between Ethereum and Binance Smart Chain

FullStack Blockchain Developer, *XP Network* 08/2021 – 02/2023
Remote

- Collaborated closely with product and development teams to enhance platform efficiency by 25%.
- Engineered 5 reusable cross-chain libraries, reducing the codebase by 10%.

Frontend Developer, *Precise Tech* 02/2018 – 08/2020
Toronto, Canada

- Participated in the development of 3 new tools for NFT transfer and seamlessly integrated them into the XP Network.
- Contributed to the development of the foundational backend for the XP Network NFT bridge and FinTech integration.
- Conducted audits on 2 smart contracts, including Defi and NFT contracts, resulting in a % reduction in transaction fees and a 10% increase in security.
- Developed a custom e-commerce platform for a major fashion brand, resulting in a 30% increase in online sales.

- Built a real-time chat application for a leading financial services company, allowing customers to communicate with agents and receive instant support.
- Designed and implemented a scalable and high-performance cloud-based architecture for a healthcare startup, resulting in a 50% increase in system reliability and uptime.
- Developed the VLaunch website, a fully influencer-backed launchpad with a 180+ influencer network and a combined reach of 20 million+ people across all popular social channels.

Education

Computer Science, *Quaid-e-Azam University* Islamabad, Pakistan

Skills

- React.js
- Next.js
- Firebase
- Docker
- Rust
- Solana
- GraphQL
- IPFS
- Go
- Visa processing (family, employment, investor)
- Typescript
- CSS
- Vue.js
- Figma
- Javascript
- HTML
- Mongodb
- Azure
- Python
- UAE company licensing (DIFC, ADGM, DED, VARA)
- Solidity
- Three.js
- Ethers.js
- React Native
- Node.js
- Tailwindcss
- Hardhat
- Webflow
- PRO Services Management
- Corporate tax registration & filing

Projects

TAMMAT AI ↗, *AI powered Visa processing platform, 15000 AED MRR, processed 214 applications*

Liquidswap ↗, *Built LiquidSwap on Aptos Blockchain, DEX with 200k+ community engagement.*

Pontem Wallet ↗, *Wallet infrastructure used by 1M+ users.*

Reignestates CRM ↗, *CRM built for real estate company, managing 8500 properties in Abu Dhabi*

Languages

English
IELTS 6.0
